# **PCT**

## INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 28162	FOR FURTHER see Form PCT/ISA/220 ACTION as well as, where applicable, item 5 below.						
International application No. PCT/IL04/00491	International filing date (day/month/year) 09 June 2004 (09.06.2004)	(Earliest) Priority Date (day/month/year) 24 June 2003 (24.06.2003)					
Applicant YEDA RESEARCH AND DEVELOPMENT CO., INC.							
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This international search report consists of a total of							
may, within one month fro	ed, according to Rule 38.2(b), by this Authoric	ty as it appears in Box No. IV. The applicant rch report, submit comments to this Authority.					
as suggested by the as selected by this	e published with the abstract is Figure No. 1 e applicant.  Authority, because the applicant failed to sug Authority, because this figure better character published with the abstract.

PCT/IL04/00491

Box No. I Nucleotide and/or amino acid sequence(s) (Continuation of item 1.b of the first sheet)						
1. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, the international search was carried out on the basis of:  a. type of material						
	a sequence listing					
	table(s) related to the sequence listing					
b.	format of material					
	in written format					
	in computer readable form					
c.	time of filing/furnishing					
	contained in the international application as filed  filed together with the international application in computer readable form					
	furnished subsequently to this Authority for the purposes of search					
2.	In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.					
3. Addi	tional comments:

PCT/IL04/00491

Box No.	I Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)					
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:						
1.	Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:					
2.	Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:					
3.	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).					
Box No.	II Observations where unity of invention is lacking (Continuation of item 3 of first sheet)					
This Interi	ational Searching Authority found multiple inventions in this international application, as follows:					
1.	As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.					
2.	As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.					
3.	As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:					
4.	No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:					
Remark o	1 Protest					
	No protest accompanied the payment of additional search fees.

Box IV	TEXT OF THE	ABSTRACT	(Continuation of Item 5 of the first sheet)

The technical features mentioned in the abstract do not include a reference sign between parentheses (PCT Rule 8.1(d)).

#### **NEW ABSTRACT**

Method and appartus for the ionization of living cells where an optical device (14) delivers an optical pulse having an optical field power which is modified locally by an optical field power modifying means (18) to effect ionization and destruction of living cells (16).
